

# BUILD YOUR OWN LONDON EYE WITH ART STORIES CITIES!

## You'll need:

- 1 A4 cardboard
- 1 split pin
- Scissors
- Glue

1. Print the wheel on a A4 cardboard
2. Ask a grown-up to cut the wheel following the dotted line (be careful around scissors!).  
Remember to make the hole for the split pin or the London Eye won't spin!
3. Glue the two sides of the wheel together.  
Wait for the glue to dry.
4. Glue the base of the wheel pedestal together.  
Wait for the glue to dry.
5. Put the wheel between the two arms of the pedestal and insert the split pin. Open the two arms of the split pin.
6. Spin!
